CAREER SUMMARY

Full-Stack AI Developer with a strong foundation in web application development and AI-powered solutions. Skilled in building intelligent applications using Large Language Models (LLMs), Ollama, Retrieval-Augmented Generation (RAG), Small Language Models (SLMs), and modern AI development tools, with a passion for solving real-world problems through scalable and innovative technology.

SKILLS

- HTML
- JAVA(BASICS)
- PYTHON(INTERMEDIATOR)
- SQL
- AI TOOLS(OPENCODE,LLMS,OLLAMA,RAG,ANTIGRAVITY,GEMINICLI,OPENCLAW)

EDUCATION

Sri Ramanujar Engineering College, Chennai
Bachelor of Technology (B.Tech) – Information Technology
Duration: 2022 – 2026 | CGPA: 8.01

Kurinji Matriculation Higher Secondary School, Harur, Tamil Nadu
Higher Secondary Education (HSC)
Year of Completion: 2022 | Percentage: 72%

PROJECT

1. Online Booking Management System

Developed an online booking system where customer booking details are automatically stored and managed in Google Sheets for real-time tracking.

2. Women Safety System

Built a login-based safety application that tracks user location and shows nearby police stations during emergencies.

3. Employee Attendance & Salary Management App

Developed a mobile application for employee login, office Wi-Fi/location-based attendance, and automated monthly salary processing with role-based access.

4. Local AI Agent Extension(VS CODE)

This extension is a free, local AI coding assistant for VS Code that runs entirely on your machine using Ollama. It acts as an autonomous agent capable of chatting with you, generating project structures, and editing files without requiring internet access or paid API keys.

5. Tech tutor SLM(Small Language Model)

TECH_SLM is an end-to-end Small Language Model (SLM) project that fine-tunes TinyLlama using LoRA and QLoRA for coding assistance. It demonstrates the complete AI pipeline, including dataset preparation, model training, inference, and web deployment with modern open-source technologies.
